ABOUT US

TK Travel was founded in 2015 as a travel agency specialized in **INBOUND** for foreign customers. It has developed a complete management system based on its rich service experience in events, restaurants, and FIT Tour.

After that, it provided more and more ways to enter tourist attractions for domestic and foreign tourists, and further developed the TK PLACE APP. In order to provide customers with more convenient and innovative services, it has continued to work hard to this day.

OUR BUSINESS

- How To Use PMS
- PMS Customer Admission Processing
- PMS Settlement and Excel Output
- PMS Barcode Management
- B2B Network System Structure
- TK PLACE Utility
- PMS Service Fee

How To Use PMS

1 Log in to the App to use

2 Select "Scan Barcode"

3 Scan directly on admission

4 Scan result confirmation

5 Confirm scan details

PMS Customer Admission Processing

1 Customer obtains barcode

2 Scan barcode

3 Processed to entered

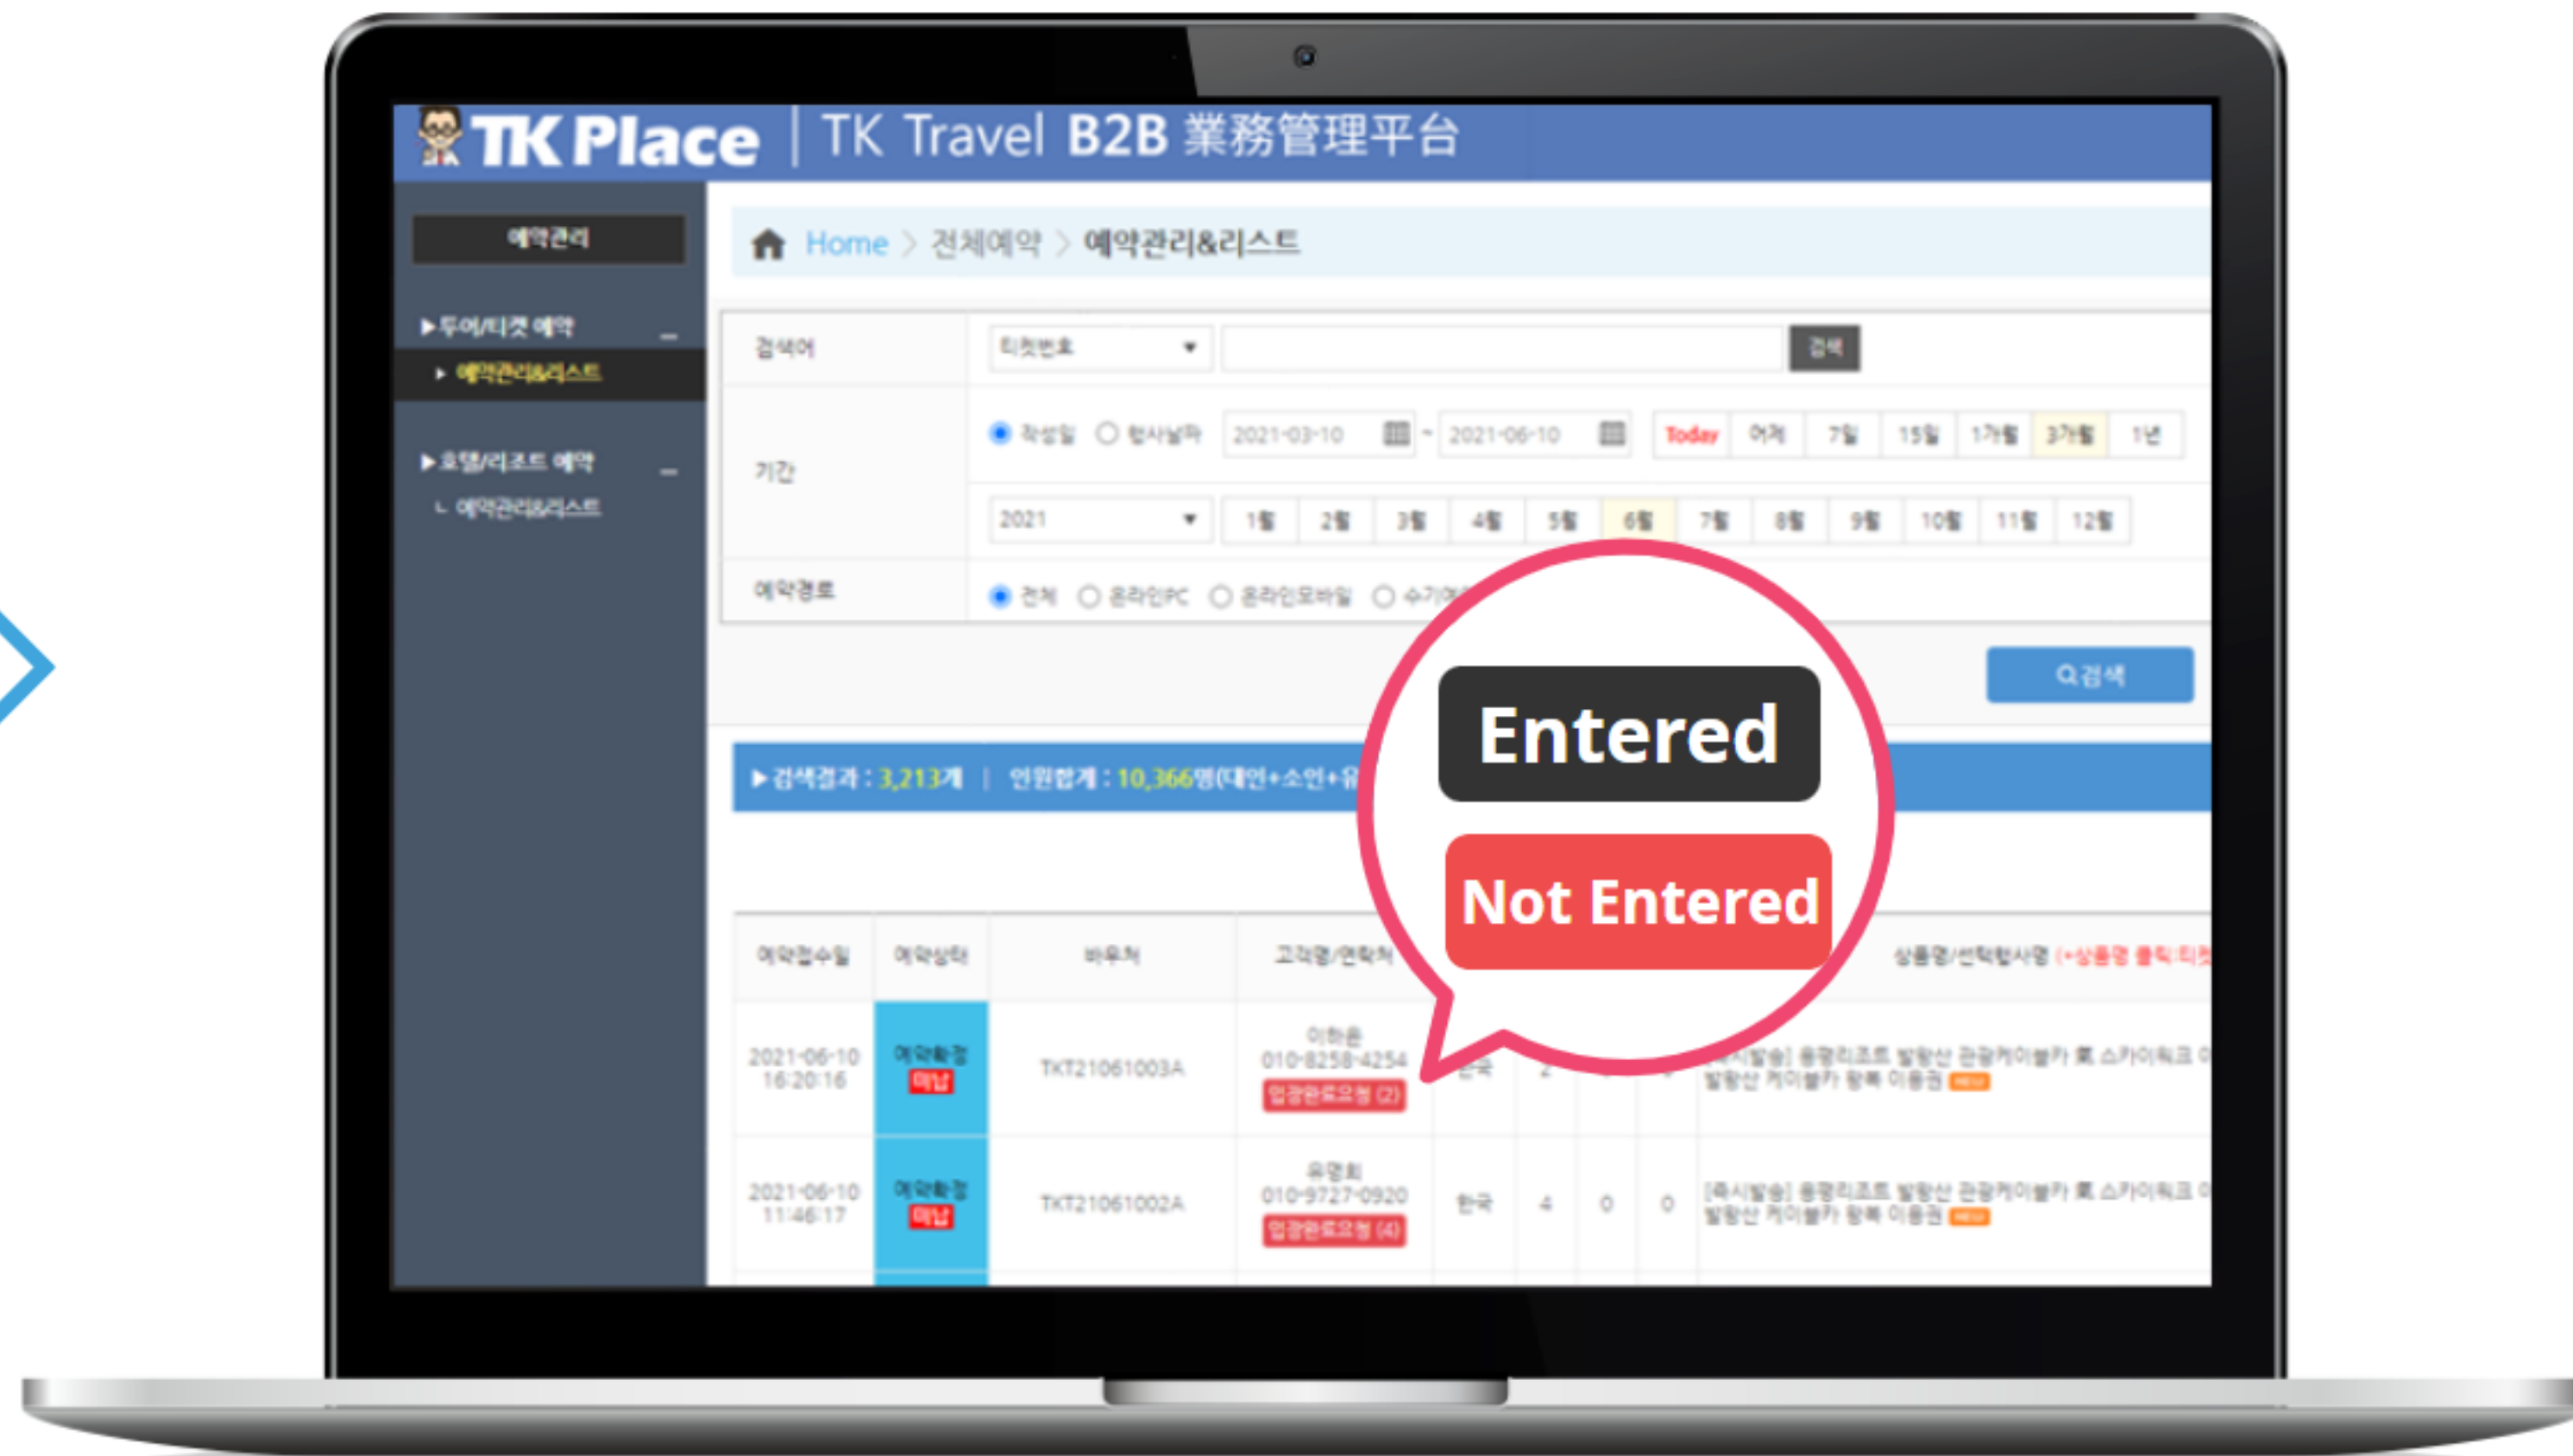

4 Not logged in or duplicate barcode

5 Automatically changes the status to "Entered"

Processing the entrance of PMS service users

08/19

Customers using TK PLACE agree to use personal information when purchasing/issuing barcodes for tickets.

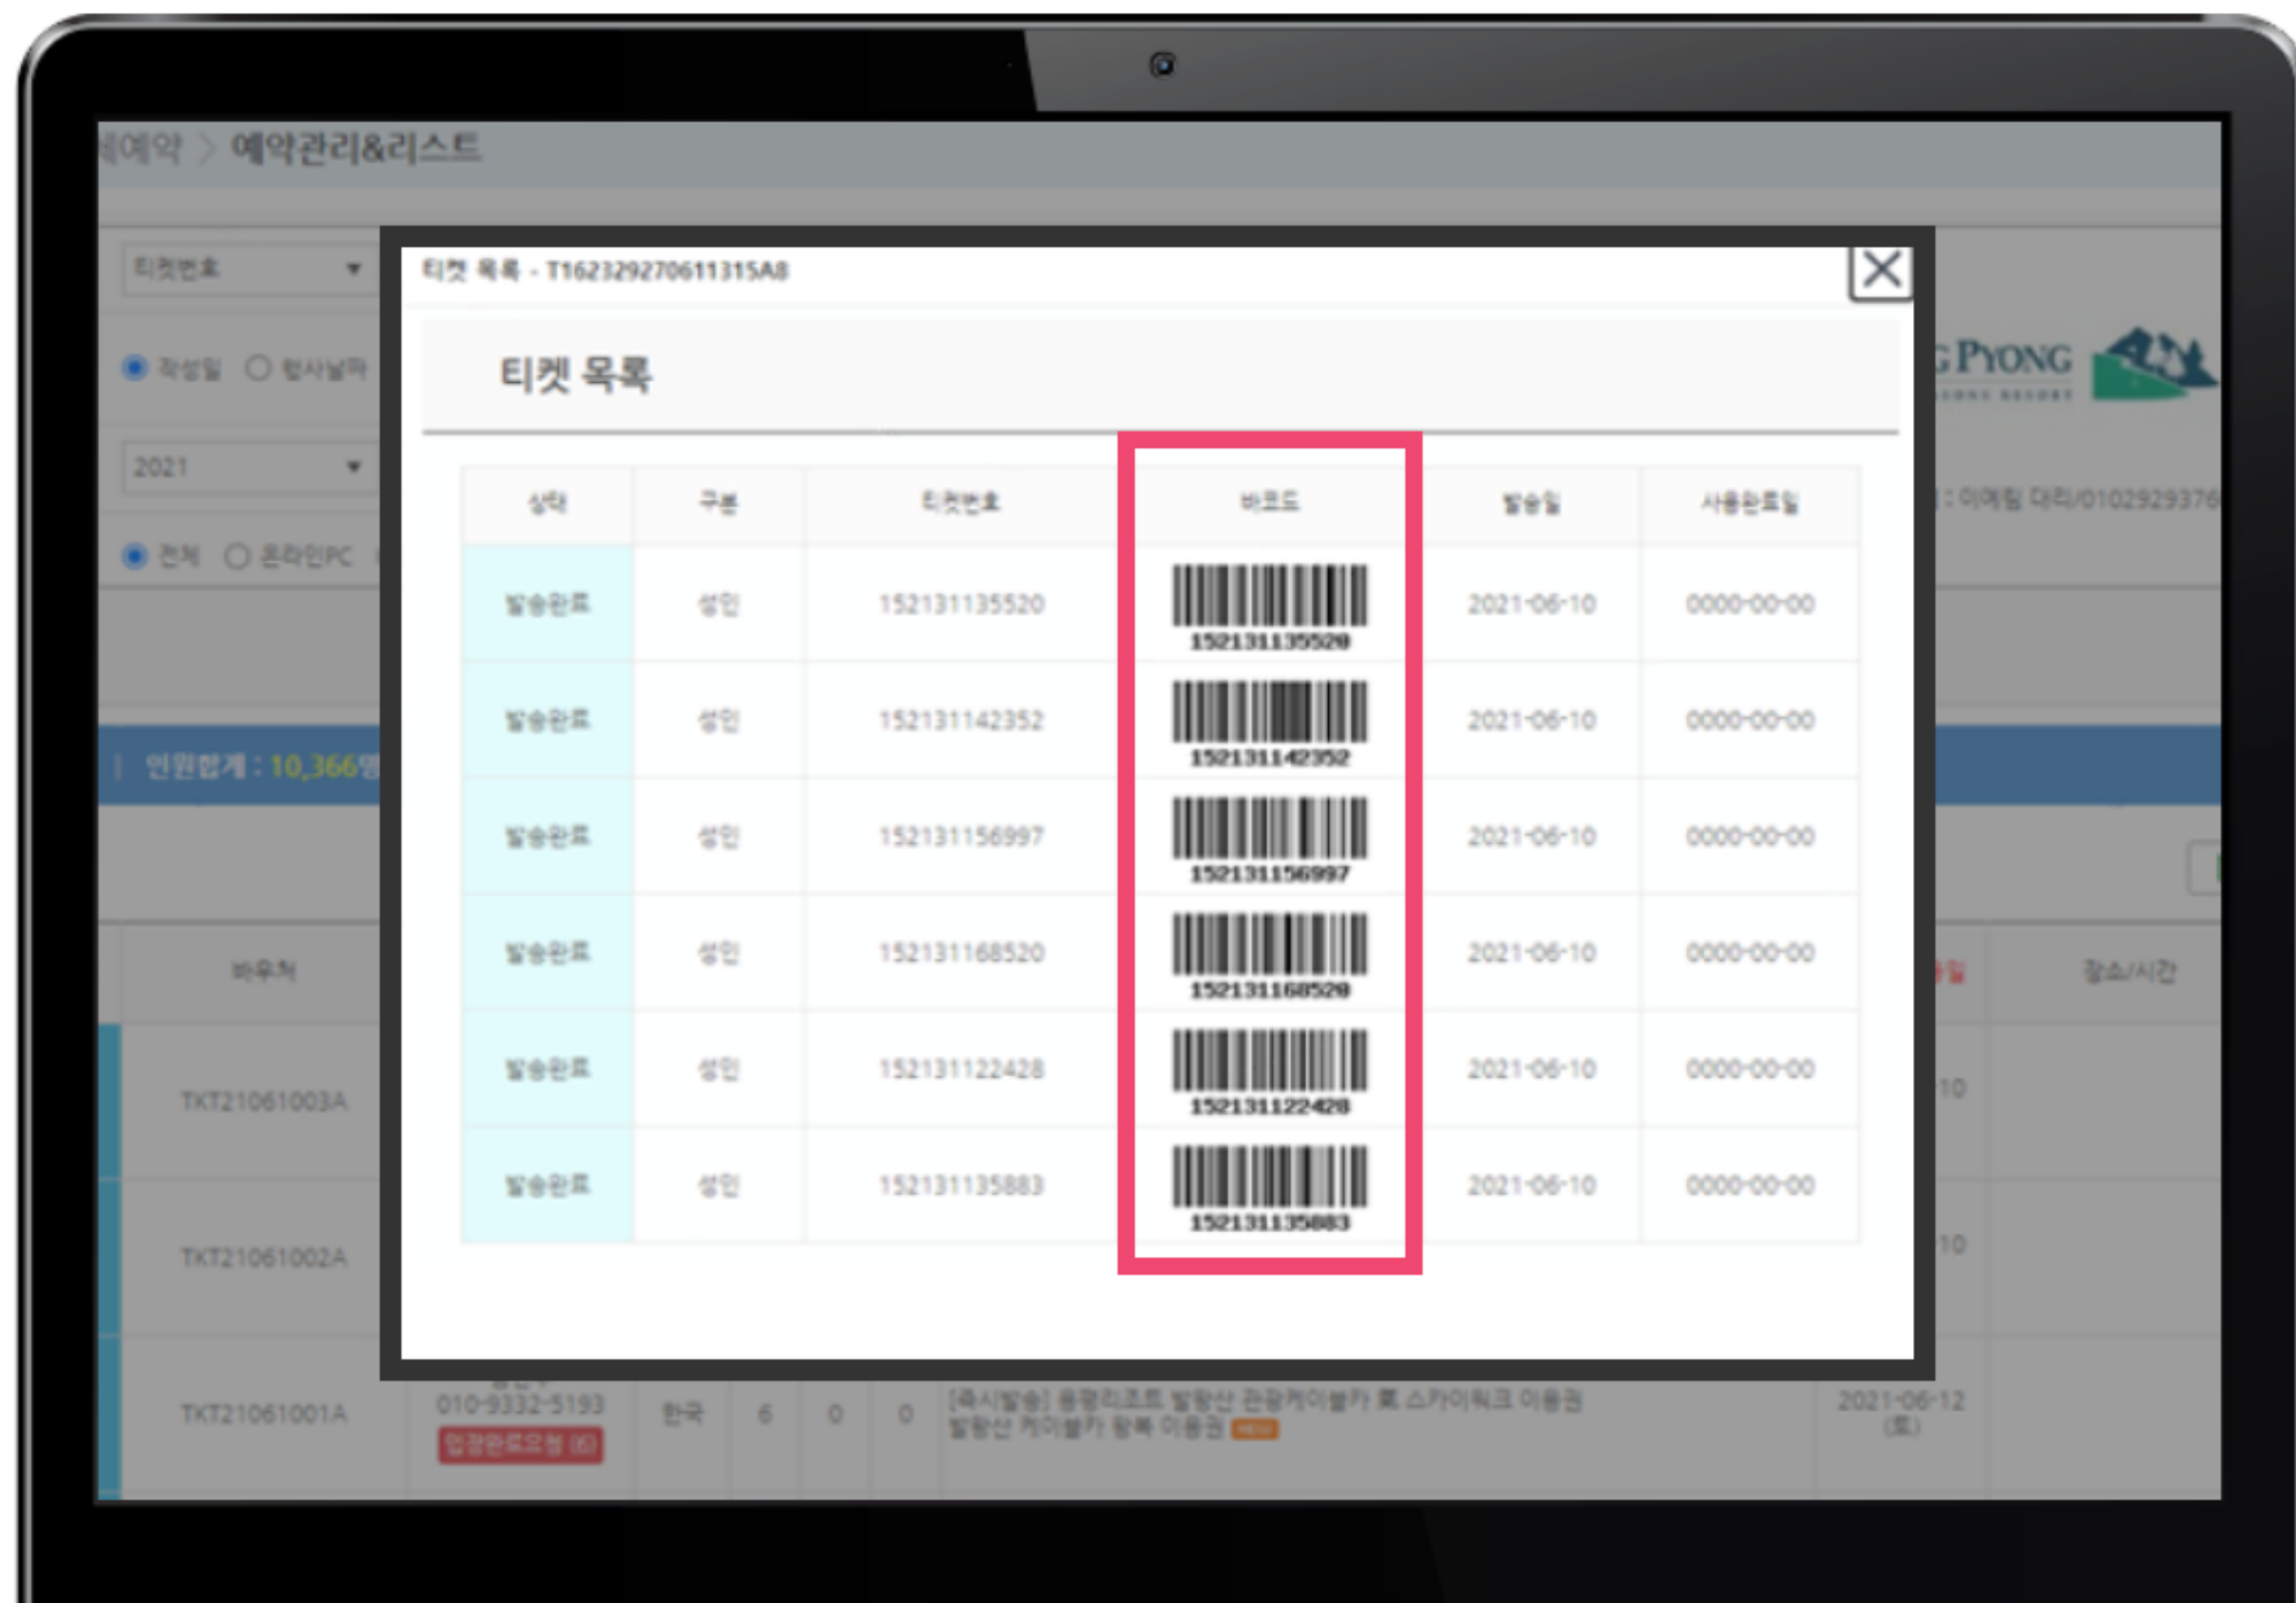

※After scanning the barcode of the customer's ticket, the status will automatically change to "Entered".

PMS Settlement and Excel Output

The screenshot displays the TK Place B2B business management platform. The interface includes a sidebar with navigation options like '예약관리' (Reservation Management) and '예약관리&리스트' (Reservation Management & List). The main area shows a search bar and filters for dates and ticket types. Below the filters, there is a table of reservations with columns for reservation date, reservation status, ticket number, agent name, agent phone, agent email, and agent address. Two callouts are present: one on the left labeled 'INVOICE PDF' and one on the right labeled 'LIST EXCEL'.

TK PLACE

1

Use TK PLACE App to scan the barcode

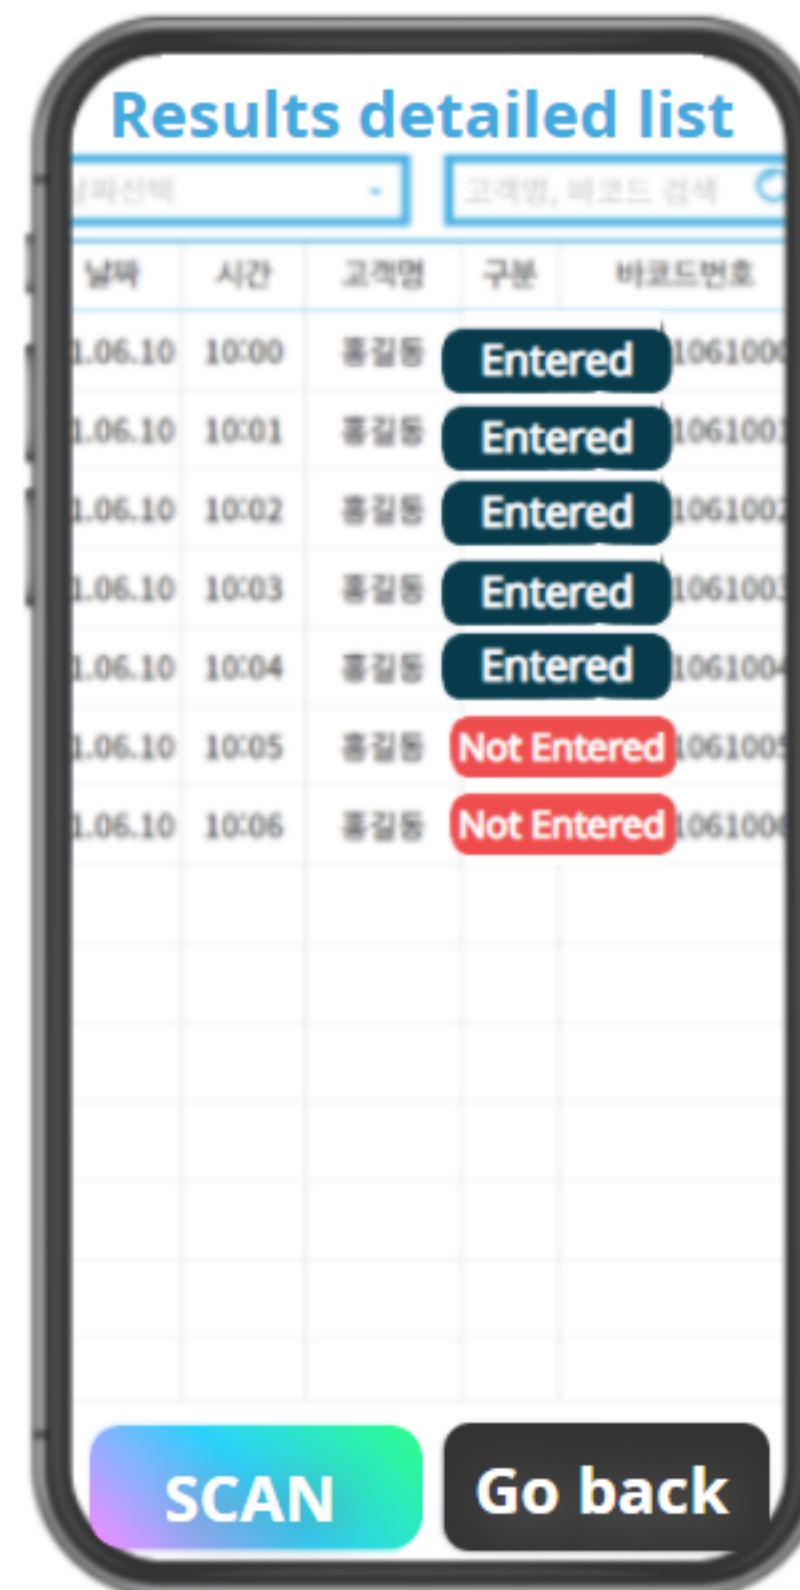

1 Download from Google Play Store

2 Customer shows barcode

3 Conductor use App to scan customer's barcode

4 Status automatically changes to "Entered"

1 The customer shows the mobile phone barcode at the ticket office

2 Click on the barcode link and press the "Allow Entry" button

3 After pressing the button, the status will automatically change to "Entered"

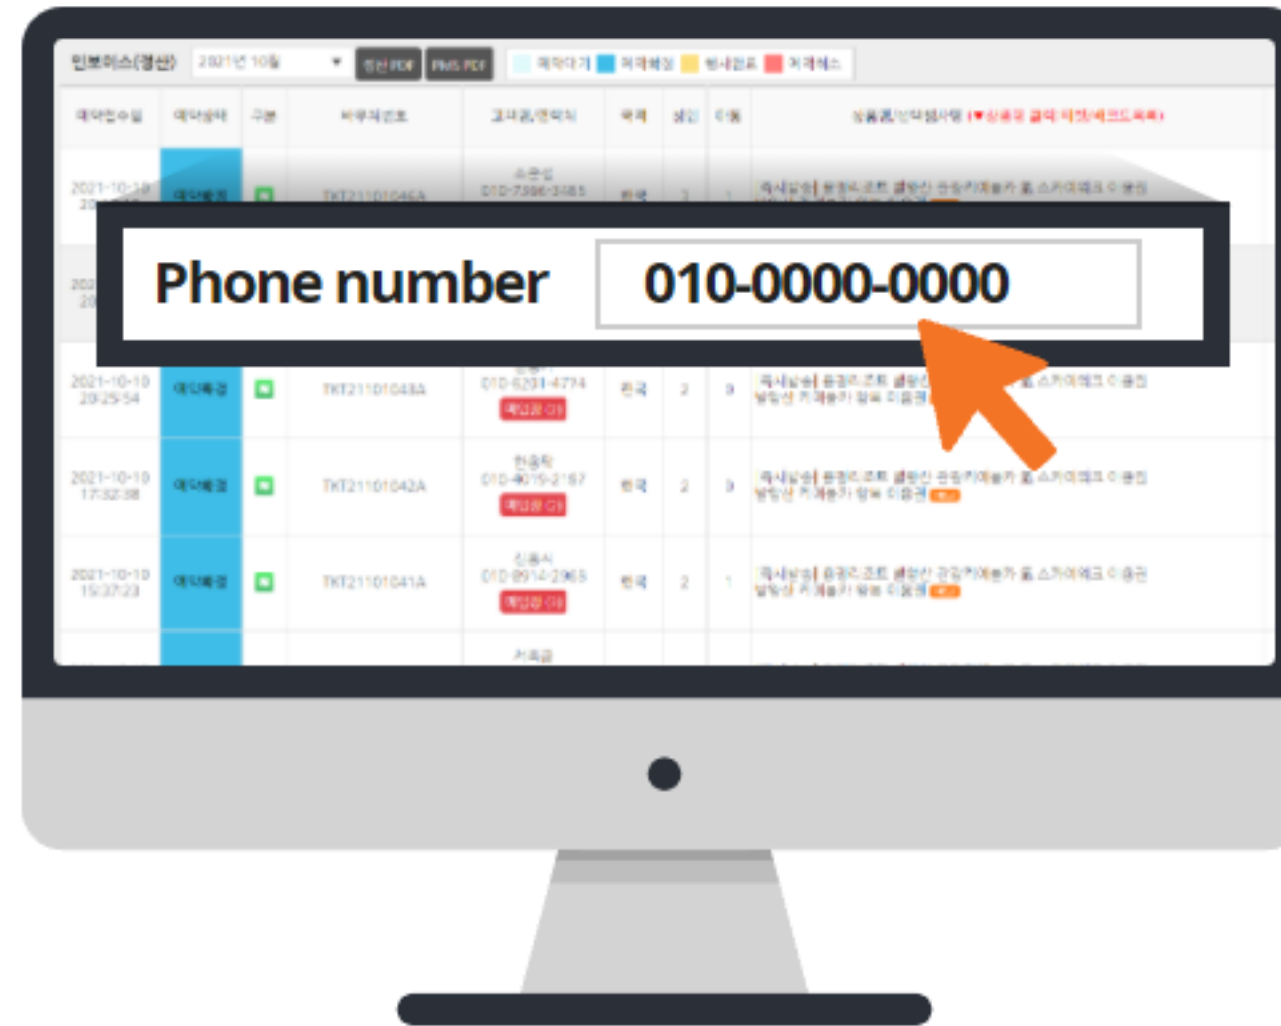

3

Confirm customer's name and phone number

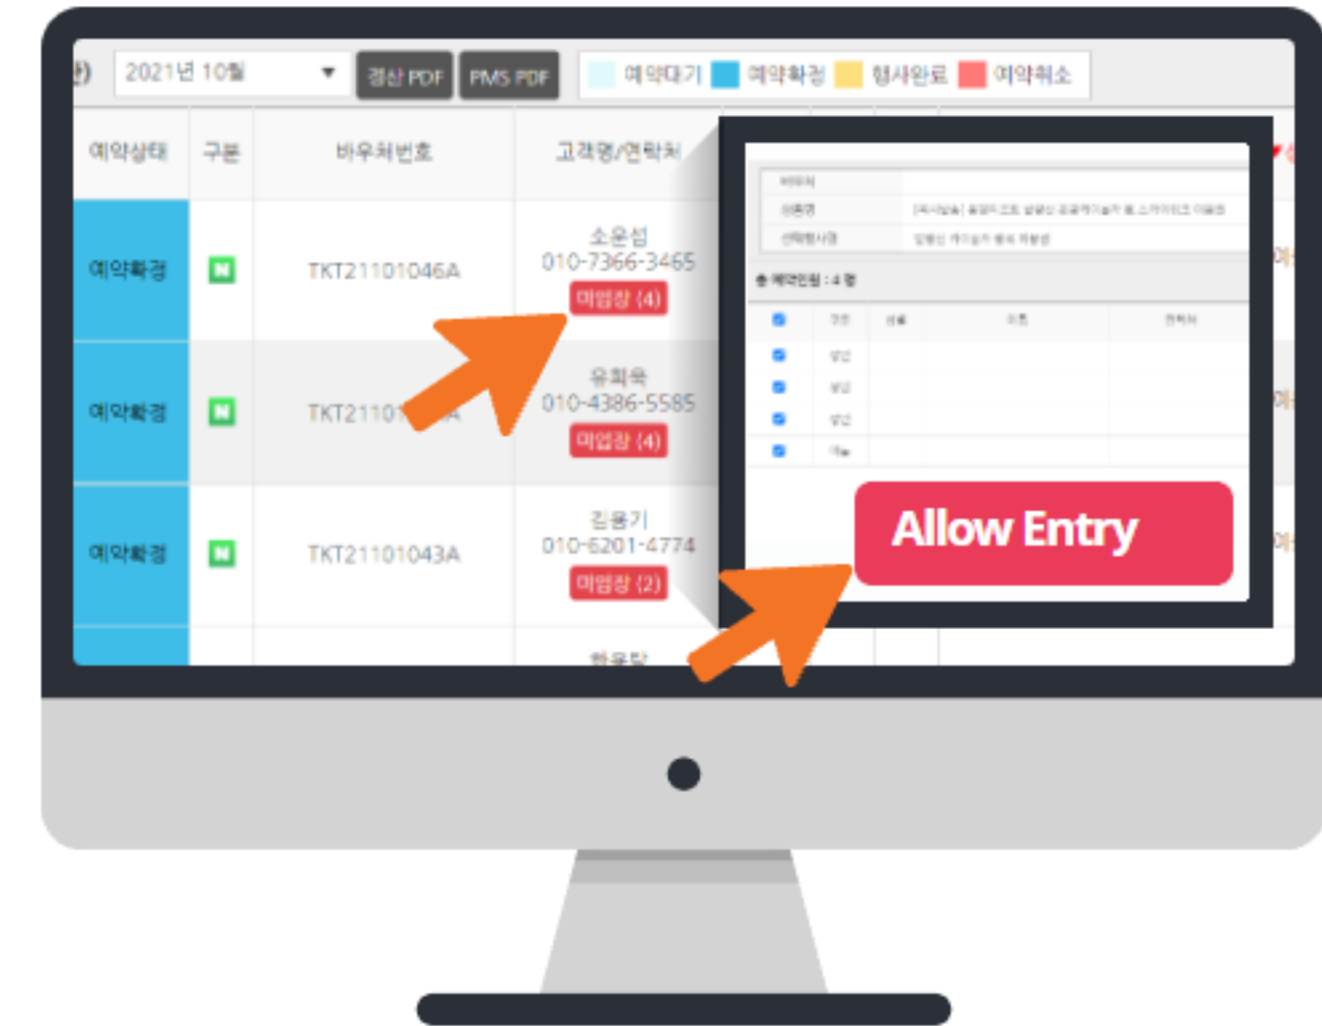

- 1 Ask the customer's name at the ticket office, and then search for the customer's name on the PMS page.
- 2 Ask for the last four digits of the customer's phone number. (Double Check!)
- 3 After confirmation, please issue the ticket and manually press the "Allow Entry" button on the PMS page.

1 Search customer's name

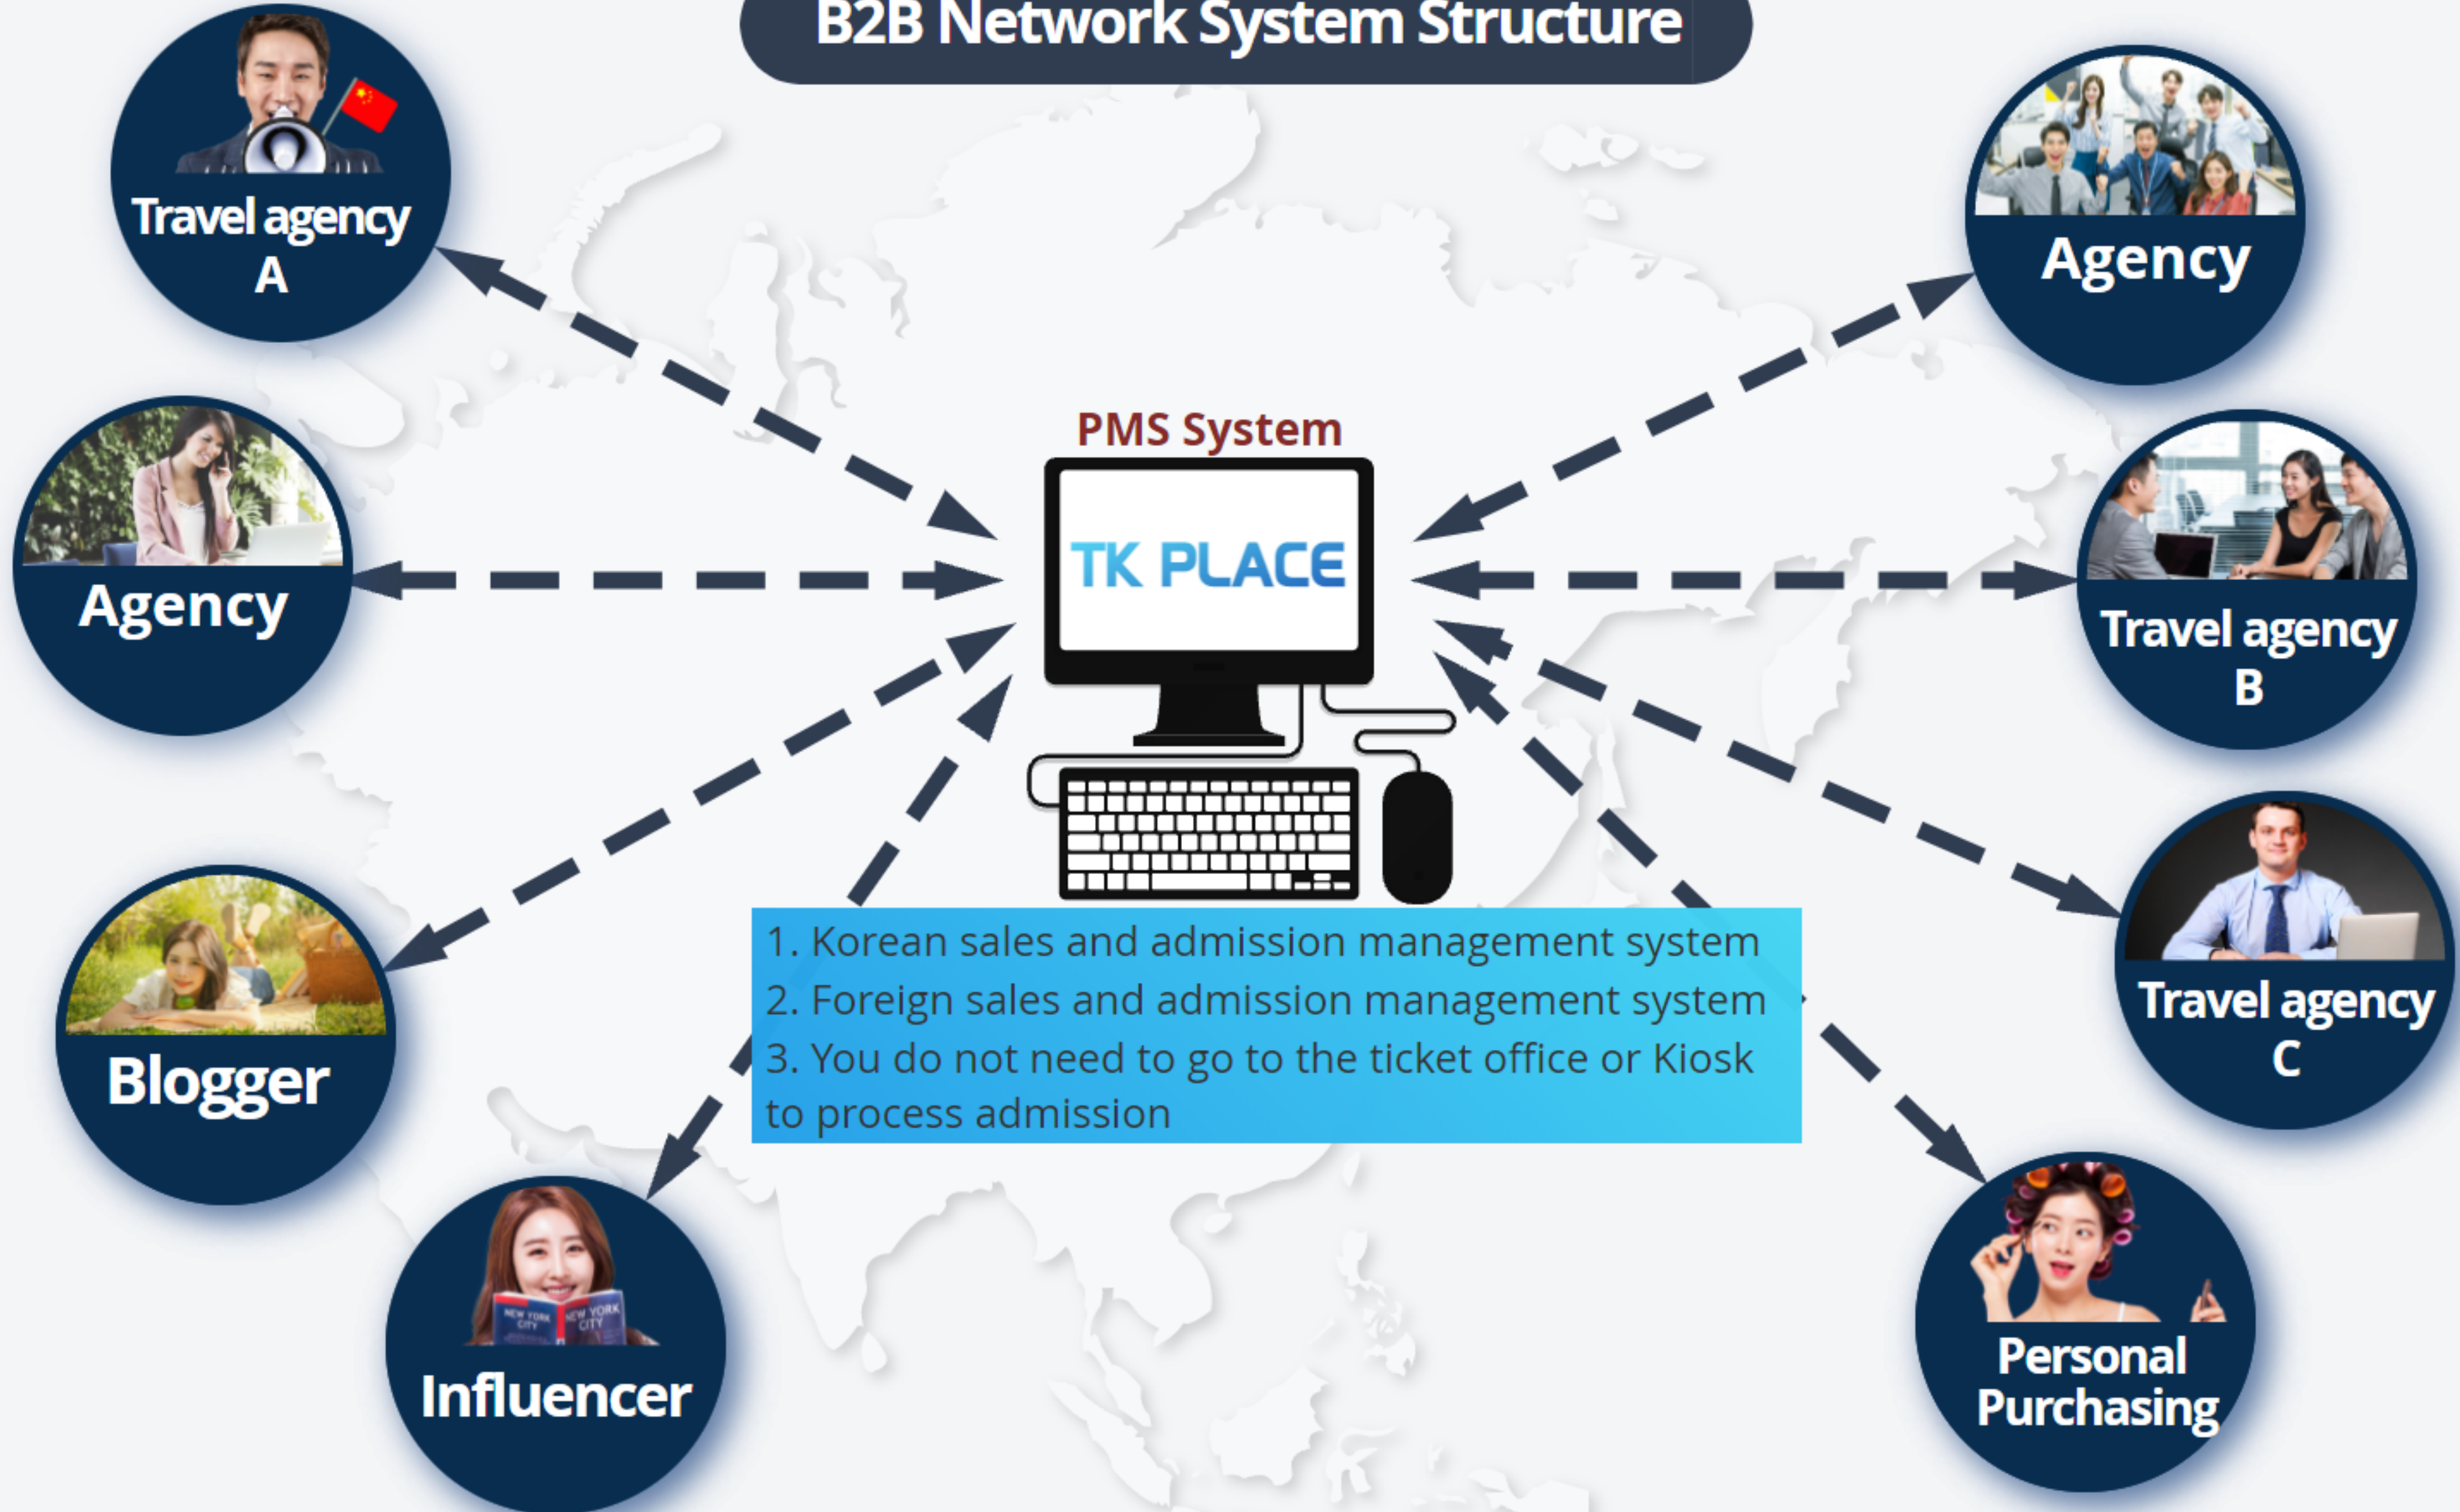

2 Check the phone number

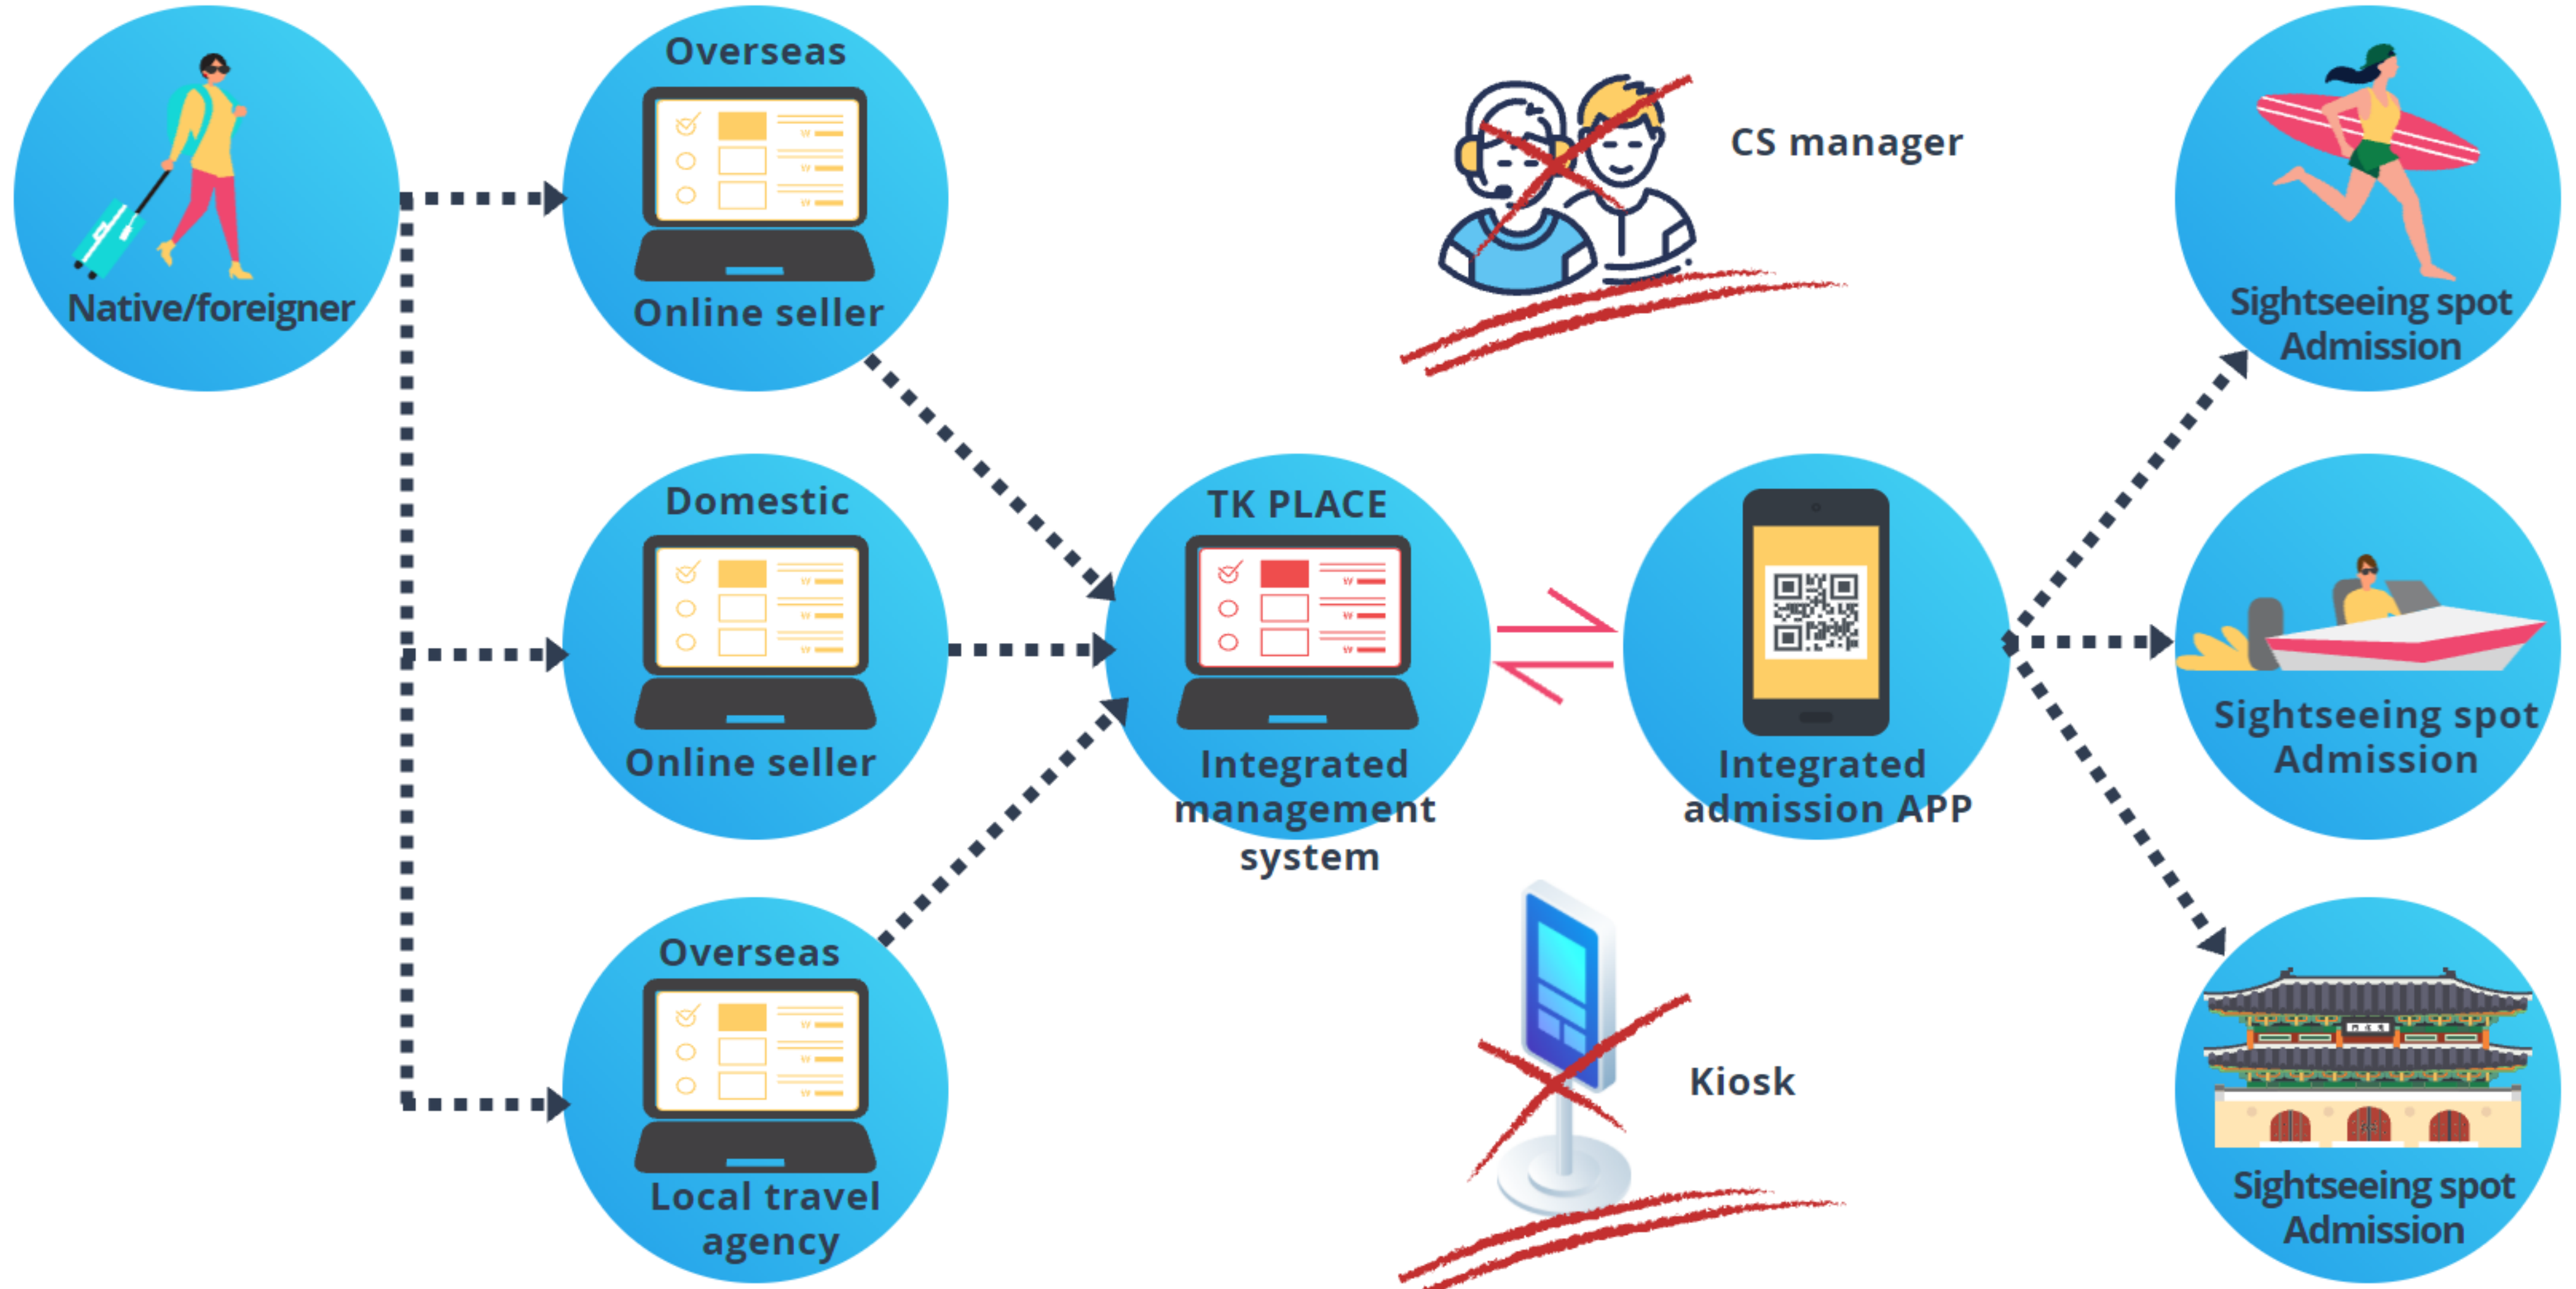

3 After click "Not Entered",
You can manually perform
"Allow Entry"
